## FINANCIAL.

Extreme quietude was the distinguishing feature at the banks yesterday. Exchange was very plentiful- of discount buying, and premium selling on New York; New Orleans buying at M discount, selling at par. The New York Bulletin, of Saturday, "New York exchange was quoted to-day as follows at the places named: Savannah, if premium. Charleston-buying at par; selling at 3-16@14 premium. New Orleans—commercial, 3-15; bank, par. Chicago, 50@par. Boston, 1236 cents discount. A feature of the day here was the advance in the rates of money. Silver in London advanced to 51/3/d per ounce, on purchases of about 700,000 ounces for this arket. The secret of all this is that the Pacific coast silver mine owners are ma-nipulating the market so as to get a high price for the next purchase of the treasury, which will soon be in the market

for 3,500,000 to 4,500,000 ounces. Dispatches Months. from Washington this afternoon to the Even ng Post say, in effect, that the secretary has ien a march on the bonanza people and bought a large sum before they knew it, and materially below their price. Silver here ruled at a price that made the bullion value of the new dollar about 91% cents gold." The Lindon Times recently reported: "Business in the silver market has been very limited. ited, and although the rate for fine bars is kept up at 54%d per ounce, the tendency is flat. The speculation at work during the week caused a rise of fully 1d over the price current at the end of last week, and the agents of the German government are still asking 55d, but as the more immediate re-quirement of buyers have for the time been fied, there is now scarcely any demand. The chief sales of the week have been on German account, but that source of supply has now become very short." In our local market there was inquiry for a small lot of paying scrip, for Phenix insurance stock, and for Union and Planters bank stock, the latter
